5x CERAMIC COLOR PROTECTOR™

Professional Hair Styler "Straight & Curls" HS 9230

Product data

- 5 x Ceramic Colour Protector™
- High-quality 5-times ceramic coating of the styling plates protects damaged hair, prolongs colour brilliance for dyed hair and provides even heat distribution as well as significantly smoother styles
- Fashionable and flexible styling for a smooth, sleek look, shaped ends, as well as soft cascading waves and curls
- Curls and waves are optimally supported by the curved stainless steel plates at the outside of the device getting hot during operation, as well as curved edges
- Moveable plates distribute the pressure evenly on hair and straighten it, without damaging
- Variable temperature control from 140°C to 230°C, suitable for any type of hair (fine, normal, thick)
- Great convenience in safety and use
  - Mains operation 220-240V~, 50Hz
  - Fast electronic heating up time - within 30 seconds to 140°C
  - Red LED is flashing until desired temperature is reached, and shining staedy after that
  - 3,0 m professional cable with swivel joint guarantees freedom of movement when styling
  - switches off automatically after 60 minutes
- High-quality, heat-resistant pouch with heat-resistant surface
- 4 year guarantee for the highest quality demands
- Colour: titane / black
